## Kratak opis

- The Wireless Wire is a ground breaking solution which offers fiber speed and quality for a fraction of the price - This amazing kit replaces your Gigabit ethernet cable with two small devices that connect to each other over a 60 GHz wireless link - Simply point the included devices at one another and power them on, it will make a 1 Gbit full duplex link to instantly replace your cable - this is why we call it the Wireless Wire! - The Wireless Wire makes secure AES encrypted 60 GHz wireless link that is not affected by the crowded WiFi spectrum, offering a stable and fast link for distances of 100 meters or more - The box includes two wAP60G devices that are already paired together, a wall mounting kit, straps for pole mounting and also a pair of table stands for using the devices indoors - The link will even work through most windows, depending on their material
